

Blackboard Study Abroad Course

Complete by 5pm, Friday before orientation

What is it?

The online class contains all of the same information provided in the *Study Abroad & Exchange Handbook*, with a quiz at the end of each section to ensure that you have read and understand the material.

Why do I have to do this?

We **will not** be covering the majority of this information during orientation. Instead, we have designed this course, which allows you to study the material independently and at your own pace. This is not for credit, but must be done as a condition of enrollment for study abroad. Of course, you will also have the opportunity at orientation to ask questions on anything you'd like to clarify.

In our experience, students who complete this course are better informed about the logistics of study abroad and have fewer difficulties while abroad. We have also found at previous orientations that students are more likely to ask detailed in-depth questions after reading through this online course.

How long does it take?

The entire process will take 30-90 minutes and may be completed at different times.

What is “passing” for the course?

All quizzes must be completed with an 80% (4 of 5 correct) or better. You may retake quizzes if you do not pass the first time.

What do I do when I’m finished?

Nothing! SAEP will check the online course grade book to see that the course was completed with an 80% or better on all quizzes. You will receive an email if the course was not completed or if you did not pass all quizzes. You will be required to redo quizzes that were not passed.

What if I don’t complete it?

SAEP registers study abroad/exchange participants for credit only after they have completed this course and attended orientation. Students who do not meet both requirements are not registered, which **prevents financial aid disbursements**.
